Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Oath/Declaration

1. The declaration filed on Aug. 28, 2003 is acceptable.

Claim Objections

2. Claim 10 is objected to because of the following informalities: The word "selective" should be expressed in a better word such as --predetermined--, for example, because there is no such selection defined in claim 10. Appropriate correction is required.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kneier (3,840,294).

Kneier discloses in Fig. 1, column 1, line 61 through column 2, line 2, a combination for the application of makeup, comprising a frame 10 having a pair of lens supports 18 for receiving a pair of eyeglass lenses 24 in a vertical plane; a pair of temples 14, each said temple being secured to a respective lens support 18 near a bottom of said frame and extending in an upwardly angled direction from said frame; and a nose piece 16 on said frame between said lens supports for resting on a nose of a user. Kneier also suggests in column 2, lines 1-2 that temples 14 may be separate components which are hinged or otherwise suitably connected to the lens support 18.

Art Unit: 2873

Therefore it would have been obvious to a person having ordinary skill in this art to modify the Kneier's combination by forming each temple being hingedly secured to a respective lens support as suggested by Kneier for folding the combination into the non-use position. Although Kneier does not discuss the space from the lenses to the spaced from the eyes of the user to permit access to the eyes of the user, such a space can be varied depend upon each individual by moving the nose piece along the user's nose for a sufficient space for the application of makeup. Further Kneier does not prohibit a user to makeup the eyes by moving the nosepiece of the combination along the nose to provide a sufficient the space between the lenses and the eyes for the application of makeup.
